

2007 Support Staff Ornament for Tree Lighting Ceremony

The Support Staff Executive Council and Committee Chairs are happy to announce that in celebration of the 2007 Tree Lighting Ceremony, the Support Staff will present one of our own "Support Staff" ornaments.

The ornament is designed in the shape of a wreath made from a multitude of "hands" in different shades of green. A red heart is in the center of the wreath with a picture of the Blessed Mother holding Baby Jesus and it is accented by a metallic red bow. The words -- "Marywood University Support Staff Celebrates TEAMWORK with JESUS in our HEART" --is handwritten on the wreath.

The design for this ornament was taken from numerous ideas given to us that best represent the Support Staff here at Marywood:

- The "wreath" represents the circle of friends, co-workers in the Marywood community
- The "hands" represent the hands-on work done by the Support Staff
- The "bow" represents the ties that bind us as family
- The "heart" represents Blessed Mother and Baby Jesus - who are the center of our lives

Each piece was specifically "hand-cut" or "hand written" to exemplify the many different jobs done by the "hands" of the Support Staff each day.
