

MARYWOOD UNIVERSITY

Time and Effort Reporting

The time and effort reporting procedures of Marywood University affirm a system of internal controls that provides reasonable assurance that personnel costs are accurate, allowable and properly allocated. Salary and wages charged to Federal grants must be reported in accordance with the Office of Management and Budget (OMB) 2 CFR, 200.430 and Marywood University fiscal policies.

Effort reporting is the amount of time spent on a particular federal funded activity. Effort is expressed as a percentage for faculty and exempt employees and as hours worked for hourly employees.

Marywood University uses as “after the fact” review of time and effort reporting on a biannual basis. All employees funded by federal grants are responsible to assure that their reported distribution of time and effort represents 100% of their University compensated time. The time and effort reporting form is available on the webpage of the Office of Research and Sponsored Programs.

Time sheets for “grant only” funded non-exempt staff and students serve as the effort reporting documentation of time spent on grants.

The Principal Investigator or other supervisor who has firsthand knowledge of time and effort spent by the employee has signature and certifying authority confirming effort of faculty and staff involved in the project.

Copies of the time/effort reports certified by the PI or other administrator are to be returned to the Grant Accountant biannually on the 10th day of July and January. Any cost changes or transfers will be made by the grant accountant and certified by the PI.
